

The Warrell Corporation

A Leader in Confectionery Co-Manufacturing

February 2, 2009

Open letter to: Katharine Beecher Candies Customers
Manchester Farms Products Customers
The Warrell Corporation Contract Manufacturing Customers

Subject: Expanded peanut butter, peanuts (dry and oil roasted), granulated peanuts, peanut meat, and peanut paste recall

The Warrell Corporation has not sourced any peanut ingredients or products from Peanut Corporation of America or the King Nut Company either since or prior to January 1, 2007 for use in products produced for you.

We are manufacturers of candy and snacks and roast our own peanuts for all of the brands represented above. We take delivery of raw peanuts, inspect them with stringent quality control procedures and roast them in our own roasters. Many of our items contain roasted peanuts (Peanut Squares, Peanut Crunch and Peanut Brittle). For a few of our items (Peanut Butter Duets), we grind our own roasted peanuts, making peanut butter as we manufacture our product. All of our manufactured products are thoroughly tested and we have assurance that they are safe and wholesome.

We have also checked with all of our suppliers for your products and have assured ourselves that we have not received any products containing peanut butter, peanuts (dry and oil roasted), granulated peanuts, peanut meat, and peanut paste from any company mentioned with regard to the current situation.

Sincerely,

Patrick J. Huffman
President
